GP Resilience Fund Update

West Norfolk practices submitted 7 bids for funding from the GP Resilience Fund.

Across the region, a total of 108 bids worth £5.8m were received against an available fund of £617k.

These bids were objectively prioritised in the context of the oversubscription against the fund and then considered by a panel.

Unfortunately, the bids for West Norfolk CCG were not successful on this occasion. Practices have been written to by NHS England to advise them of the outcome.

Further work will now take place between NHS England and West Norfolk CCG to understand if there are other options that could be explored in support of the practice proposals.

Where bids were successful in other areas, they were subject to partial funding in most instances.
