The Committee is asked to note the content of this report.	

The Primary Care Commissioning Committee has previously provided the CCG with consent to progress with an incentive scheme to encourage practices to participate in activities which the CCG needs to be undertaken in Primary Care.

The May meeting gave permission for the CCG to progress with the Demand Management in Primary Care Agreement (DMPA) with a requirement to bring an update to the next meeting.

The agreement at Appendix 1 is the proposed final document which will be offered to GP practices and is included for the information of the committee.
