

Subject:	Proposed Amendment to Minutes 26 th May 2017
Produced by:	Rob Bennett Committee Chair
Presented by:	Rob Bennett Committee Chair
Submitted to:	NHS West Norfolk CCG Primary care Commissioning Committee, 21 st September 2017
Purpose of Paper:	For Decision

At the Primary Care Commissioning Committee held on 29th June the members agreed the Minutes of the 26th May 2017 were a true record of that meeting, without comment or amendment.

The WNCCG received a letter from Dr Hume of the LMC requesting an amendment to the May Minutes as follows:

Original Minutes: Item 9 pg 4

- IH commented that these services are already being delivered and most practices would want to make available to their patients.

Proposed Amendment

- IH commented that these services are already being delivered and most practices would want to make available to their patients provided it is via an appropriate contracting and funding route.

RECOMMENDATION:

The Primary Care Commissioning Committee is asked to consider this amendment
