

Freedom of Information request & West Norfolk CCG response

WN-2015-00056 – Dementia/Adults requiring Power of Attorney/GP and Clinician events

- 1. Please inform us of the signposting vehicles the CCG(s) have in place for people with dementia and adults needing powers of attorney or deputyship services.**

NHS Health Care providers would sign post patients/carers to voluntary organisations/advocates not directly to specific providers offering power of attorney services

- 2. We understand you may hold events for GPs and Clinicians to raise awareness of local services to signpost to, please let us know when these events will take place in 2015.**

NHS West Norfolk CCG holds quarterly educational events that may include signposting to other care services that support the patient pathway. Other information is disseminated on an adhoc basis through our members website and monthly newsletter.
