

Freedom of Information request & West Norfolk CCG response

WN-2015-00099 – IVF Cycles

1. Please can you tell me how many cycles of IVF treatment the CCG offers to women under the age of 40 and how many cycles to women over the age of 40.

For women under the age of 40 years – 3 fresh cycles of IVF.

For women over the age of 40 years – 1 full cycle as outlined below:

'For women aged between 40-42 years – 1 full cycle if the following 3 criteria are met: never previously had IVF treatment, there is no evidence of low ovarian reserve, there has been a discussion of the additional implications of IVF and pregnancy at this age'.

2. Please can you also tell me how many individual funding requests the CCG has received since April 2013 for IVF treatment and how many have been granted funding. Please list the number of applications and those which were successful on an annual basis since April 2013.

Please find below the requested information. Please note where figures are below five, a range (<5) has been given due to the risk of patient identification. We are therefore unable to provide concise information regarding the number of patients who applied for/received IFR funding for IVF treatment (as this could potentially lead to identification of the individual patients involved).
