

Freedom of Information request & West Norfolk CCG response

WN-2015-00129 – Financial benefits from Pharmaceutical or Medical device Companies.

Seeking details of financial links between pharmaceutical/medical device companies and doctors/officials involved in providing advice/making decisions on which drugs CCGs should use/prescribe. This includes the practice of doctors/officials taking part in paid "advisory board" meetings for such firms.

NHS West Norfolk CCG have already published their register of interests for members of the CCG on its website – <http://www.westnorfolkccg.nhs.uk/about-us/registers-interest>

Furthermore there are no pharmacists directly employed by NHS West Norfolk CCG; therefore the CCG does not have such a register regarding pharmacists. The CCG has purchased this service as a whole from NEL Commissioning Support Unit. You can FOI NEL Commissioning Support Unit directly via the contact details available on their [website](#).
