

Freedom of Information request & West Norfolk CCG response

WN-2015-00163 – Commissioning of Armed Forces Veteran Specific Healthcare Services

- In your area, do you commission armed forces veteran-specific healthcare service(s)?
- If yes, can you please outline the service provision commissioned by the CCG in your area?
- If no, can you tell us if veteran-specific healthcare service provision for your area is part of your CCG commissioning intentions for the future?

The CCG does not commission armed forces veteran-specific healthcare services. This is carried out by NHS England. There are no plans at present to commission this area of service in the future. You may wish to raise your query with NHSE using the FOI [contact details](#) on their website.
