

## Freedom of Information request & West Norfolk CCG response

### WN-2016-00162 – Domiciliary Medicines Review

**I am writing to ask if you could provide any reports (service specifications, audit reports, service evaluations etc.) which may be available relating to any services of a similar nature delivered in your area.**

*The domiciliary medicines review is carried out by the Norfolk Medicines Support Service and a sheet is attached explaining their purpose. It is managed by NEL Commissioning Support Unit (CSU).*

*There are no specific palliative care services within medicines management team. However, 12 pharmacies have agreed to stock certain palliative care drugs. This is a service also managed by NEL Commissioning Support Unit (CSU).*
