

## Freedom of Information request & West Norfolk CCG response

### WN-2017-00132 - Formulary

I have tried to view the NHS West Norfolk CCG formulary, but the page is not found, can you please let me know whether this is due to the formulary location moved or is it a technical issue.

#### *Clarification Received*

*There is a message on the formulary page with the note that the formulary is under review:*

<http://www.westnorfolkccg.nhs.uk/medicines/formulary>

***Do you know when the formulary will be completed?***

*The information requested is not held by the CCG.*

*The CCG can confirm this is currently a work in progress but there is no fixed date as to when this will be completed. We hope to have to have this updated in a few months time.*
