

## Freedom of Information request & West Norfolk CCG response

### **WN-2017-0225 – Coeliac Disease**

**I am completing some market research on the number of people diagnosed with Coeliac disease, particularly within the West Norfolk district. However as Norfolk's population can be transient I was wondering if you hold information on the numbers of Norfolk's population as a whole that are Coeliac's?**

*I can confirm that NHS West Norfolk CCG does hold this information. In West Norfolk we have 125 patients who have been coded with the read code of J690 – Coeliac Disease.*

**There are also people residing in West Norfolk who may be Gluten Intolerant and I am enquiring whether this statistical data is also held.**

*I can confirm that NHS West Norfolk CCG does not hold this information as gluten intolerance data is not collected.*

For any future correspondence regarding this request, please quote the reference number **FOI.17.WNO225**.
