In this instance we have determined that to respond to your request in full would exceed the appropriate limit as set out in section 12 of the Freedom of Information Act (2000).

In order to respond to your request in full, we would be required to manually review each contract and populate each field which is not routinely recorded within our contract database, a task which would place undue burden on our resources.

Please find attached a report *(Please see part 2 of the Fol)* which we have been able to produce within the scope of the appropriate limit as set out in section 12 of the Act.

You would be welcome to resubmit your request, however before doing so you may like to reconsider the scope. In order to bring your request within the appropriate limit, you may prefer to limit it to one of the following at any one time:

- **Contracting issues (e.g. contract length, value etc.); or**
- **Procurement issues (e.g. shortlisted bidders, cost of procurement etc.)**
