

Freedom of Information request & West Norfolk CCG response

WN314 – Spinal Cord Stimulation

Under the FOI act I would like to know the following information on a therapy known as spinal cord stimulation for the management of chronic pain

Can you provide me the number of spinal cord stimulator patients your CCG funded in 2013-14

Spinal cord stimulation (SCS) is a Specialised Service commissioned by NHS England and therefore not routinely funded by CCGs. West Norfolk, North Norfolk and South Norfolk CCGs therefore did not fund any therapy for SCS in 2013/14.
