

Freedom of Information request & West Norfolk CCG response

WN339 – Co- Commissioning intentions

I would like to enquire as to the status of the the CCG and LCG's with regard to their submission to NHS England on their Co-Commissioning intentions. Have any documents been submitted?. If not is there a date you are planning to?

The CCG responded to the initial invitation from NHS England for CCGs to express an interest in co-commissioning with the attached letter. Please note that we are a small CCG without any LCGs.

NHS England have proposed 3 possible models of primary care commissioning in November asking for CCGs to clarify, by January 2015, their intentions for either: great involvement in primary care decision-making, joint commissioning arrangements or delegated commissioning arrangements. I advise therefore that as this is intended for future publication, it is exempt from release under section 22 of the Freedom of Information Act.
