

## Freedom of Information request & West Norfolk CCG response

### WN348 - Somatropin

**1. Spend on somatropin during 2013-14**

*For 2013-14 spend is only available by Trust due to large volume FP10 prescribing (where CCG of origin is not available). In 2013-14 spend by the main prescriber NNUH was £92,292, Queen Elizabeth Hospital was £73,840 and James Paget was £171,549. These spends cover five main CCGs in Norfolk & Waveney, but also some patients out of area (for example West Suffolk and Cambs)*

**2. Budget allocation for somatropin for 2014-15**

*Unfortunately we do not have specific budgets for individual drugs; only overall budgets for each provider*

**3. 2014/15 spend to date on somatropin**

*Majority of prescribing is non FP10 (and so to date):*

<i>North Norfolk:</i>	<i>£113,861</i>
<i>Norwich:</i>	<i>£124,280</i>
<i>South Norfolk:</i>	<i>£120,099</i>
<i>West Norfolk:</i>	<i>£34,956</i>
